## ABOUT ME

I've been working in tech since 2018, both as a freelancer and as an employee. I mainly worked on mobile apps & websites but I've been doing videogames development as a hobby since I was 16.

I've gathered knowledge of many different frameworks and technologies since I started programming.

I'm looking for work opportunities in React and React Native. Currently working for the mobile company as native mobile developer.

## EXPERIENCE

### 2018 - 2019 SWIFT SRL

#### MOBILE DEVELOPER

- >> Planned, designed and programmed iOS and Android apps (ObjC / Swift & Kotlin / Java).
- >> Worked on frontend development with WordPress & Backend development in Django.

### 2019 - 2021 FREELANCING (AVERAGE DOODS)

#### FULLSTACK DEVELOPER

- >> Developed mobile apps in native Android and iOS.
- >> Maintained and developed React Native and Xamarin mobile apps.
- >> Designed and Developed WordPress websites.
- >> Designed and Developed React websites, dashboards and landing pages.
- >> Worked on BLE devices, NFC tags and Beacons.
- >> Worked with Raspberries and Arduinos.
